

When planet Earth is blue ...

World turns into the night
Weary bones find softened down
Silent owl takes to flight
Smaller feet run underground

Dreamers reach for something new
Your mind drifts away into the blue
The stars light the way for you
When planet earth is blue ...

Clouds bring a shadowed ground
But in human hearts, darkness is found
In fear we lose our inner sight
Love takes cover underground

Modern city orange lights
Bring darkness to the gloom
But the stars are a light for you
When planet earth is blue ...

Morning star brings thoughts to mind
But dreams are woven in the night
Leave fear behind at street-light's door
And wonder with the stars tonight

Heroes cast into the sky
Wisdom's path – alight with stars for you
The stars reach down to you
When planet earth is blue ...
